

Interviewee:

Julie, age 21, female, does not play PC games.

Main Menu:

Wow, I like this. It looks great. So I think I should start the game (click start).

Okay level zero, why don't you call it with level 1? Oh the tutorial, okay.

Tutorial:

You didn't describe, what should I do?

Well, I think probably you should keep the instructions on screen. So like for me, I've already forgot which button should I press. So that's WASD...?

They're moving so fast.

But how could I cast it really far?

Level 1:

Can I get two fishes at the same time?

It's kind of hard cause some fishes are really far away from me.

And I still don't know how to cast further.

Hold the mouse for longer? Yeah I tried, but still...

But I like the way those fishes will come by themselves. That's great, that is helpful.

REDO Level 1:

It's hard for me, which is not good with this game, and with everything.

You know what, when I try to hold it longer, it moves already.

I know there are fishes, but it's hard for me to catch them.

(screaming...

(this is worse than the first time) Thank you, I know. Thank you for letting me know...

REDO Level 1:

(screaming...

This is worse than when I'm playing animal crossing.

Thank you for coming along, fish.

Okay I found one...

I actually don't know how long should I press.

Oh it's not actually the number of fish, it's the point.

REDO Level 1:

That was close.

(screaming again...

Don't go! I told you to stop moving (talking to the fish).

(failed again, smash the mouse

REDO Level 1:

Yeah this is really hard for me. I can tell. I know, you don't have to remind me of that

Cheat to unlock Level 2:

But it's harder...

Oh...? (falling off the iceberg) But I just move back, I didn't press anything.

Oh wait, actually I can fall in the river?

Sorry but I just bad at game.

I only got one point.

(smash my mouse again...

Yeah this is harder, cause I just get on point.

REDO level 2:

It's kind really hard for me to control.

But I don't even know which direction I should go.

("you could try") Yeah but it's wasting time

Omg, omg!!! (smash my mouse...

Two points, okay improving...

REDO level 2:

I feel like I don't even do this game, what else can I do....

So hard...

Yeah I see that but I just can't catch it.

You know what, you should tell someone else to play this game.

Wow that's really far away for me.

(4 points, smash my mouse one more time...

("you got exponential growth on score") Oh thank you...

Wow it's gonna take me two more times to get 10. Oh wanna cry.

REDO level 2:

Turn around, it's not moving (the fish stuck

Please let me do it this time (sign ...

You know what, can I skip?

You tried it? Okay so now you blame it all on me.

Come come come (sign ...

REDO level 2:

Okay, I'm just gonna try it again.

REDO level 2:

I don't think I can ever...

It's really hard for me to know which direction...
It's getting worse.
(accidentally click the return button

Cheat to unlock level 3:

Level three is the hardest one?
But like you can not see the fish right?
Oh there is one. Thank you for coming.
Omg (catching four fishes in a row
Yesss!!! I did it I did it!!! (catch the last fish to get 6 points when nearly run out of time
It is the easiest one.

REDO level 2:

I have to do it again?
After this I probably need to go to see my psychotherapist...
It's moving so fast.
Anyone come? (talk to the fish
I'm not gonna do it this time.
You should probably lower the score, to 7 or 8?

REDO level 2:

At least you can see the fish at all direction.
Come come come! (talk to the fish
It's not coming.
This one not coming either, why?
Thank you (caught one fish

REDO level 2:

Okay, one last time. I give it last chance.
Where did the fish go?
(sign ...
Why did that go away...
It feels like you fail some subjects you know
(0 point, smash my mouse....
